

CURRICULUM VITAE

RICARDO GARZA-GIRÓN

PhD Candidate

Seismology / Volcanology / Polar Geophysics

CONTACT

Earth and Planetary Sciences Department
UC Santa Cruz
1156 High Street
Santa Cruz, CA 95064
phone: (+1) 8312269016
e-mail: ricky.gargir@gmail.com / rgarzagi@ucsc.edu
personal website: ricky-gg.github.io

LANGUAGES

Spanish (Native)
English (Fluent)
French (written and spoken, intermediate)

EDUCATION

Bachelor's Degree: Geophysics Engineering (Minor: Seismology) Honors

Universidad Nacional Autónoma de México (UNAM), Facultad de Ingeniería (August 2014)
(National Autonomous University of Mexico, Faculty of Engineering)

Thesis dissertation: Spatial variation of the b value under the Popocatepetl volcano and its relation with the structure of the magma chamber. Advisor: Dr. Ramón Zúñiga, ramon@geociencias.unam.mx

PhD: Geophysics

University of California, Santa Cruz, Earth and Planetary Sciences Department (September 2015-present)
Advisor: Emily Brodsky, brodsky@ucsc.edu

INTERNSHIP

Centro Nacional de Prevención de Desastres (CENAPRED), Mexico (2013)

National Center for Disaster Prevention of Mexico at the "Special Program for Prevention and Risk Mitigation of Disasters"

FIELD WORK

Urban geophysics (2011-2012). Electrical resistivity surveys and GPR with the Geophysics Institute of UNAM to determine the structures under archaeological sites, volcanic lava tubes, city malls and others. Mexico City, Mexico.

Reference: Gerardo Cifuentes Nava, gercifue@geofisica.unam.mx

Popocatepetl volcano and the northern Mexican desert (2014). Transient ElectroMagnetics (TEM) and Magnetotellurics (MT). Estado de Mexico, Mexico; Nuevo Leon, Mexico.

Reference: Claudia Arango Galván, claudiar@geofisica.unam.mx

CURRICULUM VITAE

Geothermal exploration field campaign, Michoacan, Mexico (2015). Field leader for the project "Geoscientific study for the geothermal development of the San Bartolome de los Banos, Guanajuato, Mexico and San Agustin del Maiz, Michoacan, Mexico areas". Activities included the design, deployment and maintenance of a seismic network consisting of 12 broadband instruments as well as executing a regional electromagnetic survey with 85 sites using the TEM (Transient Electro-Magnetic) and MT (Magnetotelluric) methods.

Reference: Prof. Vala Hjorleifsdottir, vala@geofisica.unam.mx

IRIS Wavefield Communal Experiment (2016). Deployment of nodal arrays and broadband seismic stations. Enid, Oklahoma, USA.

Pacific Ocean, R/V Roger Revelle (2017). Surveying the Mendocino Fracture Zone. Deployment of ocean bottom magnetotelluric instruments, CHIRP/multibeam bathymetric data collection.

Reference: Prof. Eli Silver, esilver@ucsc.edu; Prof. David Sandwell, dsandwell@ucsd.edu

Cook Inlet, Alaska Volcano Observatory (2018). Service of existing seismic/GPS stations as well as analog-to-digital conversion of stations. Mount Spurr, Alaska; Mount Redoubt, Alaska.

Reference: Max Kaufman, amkaufman@alaska.edu

Antarctica (2018). Geophysical surveying using airborne TEM and Nuclear Magnetic Resonance (NMR). Assistance with field work for microbiologists drilling through ice and collecting samples.

Reference: Slawek Tulaczyk, stulaczy@ucsc.edu; Jill Mikucki, jmikicki@utk.edu

Aleutian Islands, Alaska Volcano Observatory (2019). Analog-to-digital conversion campaign. Korovin, Cleveland and Okmok volcanoes, Alaska.

Reference: Max Kaufman, amkaufman@alaska.edu

TEACHING

Teaching Assistant: EART110C- The Dynamic Earth (Geophysics), UC Santa Cruz (Spring 2017)

Teaching Assistant: EART110C- The Dynamic Earth (Geophysics), UC Santa Cruz (Spring 2018)

Teaching Assistant: EART110C- The Dynamic Earth (Geophysics), UC Santa Cruz (Spring 2019) (*Honorable mention as best TA voted by students*)

Teaching Assistant: EART191C-Applied Geophysics, UC Santa Cruz (Fall 2019)

GEOPATHS Facilitator: EART110C-The Dynamic Earth (Geophysics), UC Santa Cruz (Spring 2020)

AWARDS/MENTIONS

Honorable Mention for bachelor thesis defense, Universidad Nacional Autónoma de México, Facultad de Ingeniería (2014)

UC MEXUS-CONACYT Doctoral Fellowship for Mexican Students (2015)

Graduate Students Association (GSA) Research and Travel Grant, UC Santa Cruz (2018)

Zhen and Ren Wu Memorial Award Fund in Geophysics, UC Santa Cruz (2018)

GEOPRISMS AGU Student Prize, Honorable Mention (2019)

PUBLICATIONS

Garza Girón, Ricardo. (2014). "Distribución espacial del valor b debajo del Volcán Popocatepetl y su relación con la estructura de la cámara magmática". (Tesis de Licenciatura). Universidad Nacional Autónoma de México, México. Recuperado de <https://repositorio.unam.mx/contenidos/428928>

CURRICULUM VITAE

Garza-Giron, R., Brodsky, E. E., & Prejean, S. G. (2018). Mainshock-aftershock clustering in volcanic regions. *Geophysical Research Letters*, 45, 1370–1378. <https://doi.org/10.1002/2017GL075738>
Cruz-Atienza, V., Tago, J., Villafuerte, C., Wei, M., **Garza-Girón, R.**, Dominguez, L., ... & Santoyo, M. (2020). Short-Term Interaction between Silent and Devastating Earthquakes in Mexico. *Nature Communications*. *In Review*.

Denys Grombacher, Esben Auken, Nikolaj Foged, Thue Bording, Neil Foley, Peter T. Doran, Jill Mikucki, Hilary A. Dugan, **Ricardo Garza-Giron**, Krista Myers, Ross A. Virginia, and Slawek Tulaczyk. Induced polarization effects in airborne transient electromagnetic data collected in the McMurdo Dry Valleys, Antarctica. *Geophysical Journal International*. *In Review*.

ABSTRACTS/MEETINGS/WORKSHOPS
